BURKETT & SONS, INC. IS A NATIONAL DISTRIBUTOR OF CRITICAL EQUIPMENT AND SUPPLIES TO SUPPORT FOOD SERVICE PROVIDERS, ESPECIALLY AS THE UNITED STATES RESPONDS TO COVID-19 EPIDEMIC AND NEW CDC GUIDELINES.

Burkett & Sons, Inc. has provided hygienic commercial foodservice solutions to hospitals, healthcare facilities, military facilities, prisons, institutions, groceries, convenience stores and restaurants with dine-in, carryout, curbside and delivery capabilities since 1977. Burkett is honored by its partnership with the U.S. General Services Administration as GSA contractor No. 47QSWA18D002G.

With the COVID-19 epidemic continuing to spread, foodservice operators are faced with heightened responsibilities in protecting their staff and the people they serve amidst new regulations and safety concerns. Burkett & Sons, Inc. is a national distributor of the critical equipment and supplies required for food service providers to respond to the national COVID-19 epidemic and new CDC guidelines.

Burkett & Sons, Inc. owns and utilizes its own logistics channel and holds an extensive amount of inventory in its Perrysburg, Ohio warehouse and distribution center, including commercial-grade refrigeration, warewashing and sterilization, ice and water dispensers, and carryout meal and delivery supplies and continues to work with suppliers worldwide to expand the current offering to further satisfy the demands of new regulations and safety concerns. and supplies commercial, industrial and residential customers across the United States.

To maintain a safe working environment for employees, Burkett & Sons, Inc. has implemented the following changes:

- Third-party janitorial service implementing added cleaning measures to disinfect the workplace
- All sick employees required to stay home
- Office team members moved to virtual office environments, utilizing computer-based meetings
- Revised corporate travel policies to minimize unnecessary exposure
- Enforcing CDC guidelines for more than 6' working space
- Enforcing social distancing with no more than 10 employees in an individual workspace
- Ongoing communication of contingency plans to employees
